

Growing the future of Gippsland forestry

\$500,000 research funding investment to boost sustainability, jobs and economic benefits in partnership with industry

With the support of the Australian and Victorian governments, the Gippsland Centre of the National Institute for Forest Products Innovation has up to \$500,000 available for research grants to grow the future of forestry.

Research projects could include: developing new and improved products in relation to composites, extractives and bioenergy; improving workplace and supply chain innovation, safety and efficiency; enhancing tree growing including forest health and genetic gain; maximising precision management and applying new technologies; development of new non-timber forest products and services; improving forest industry social licence; and identifying opportunities with robotics, automation and artificial intelligence. Priority will be given to projects that are Gippsland-based and supported and have emphasis on building research and educational capacity in the Gippsland region.

Individual research grants will range from \$50,000 – \$500,000 and will be for periods of up to one and a half years in duration. Funding proposals close on Friday 11 November 2022 and should be lodged via email to funding.vic@nifpi.org.au. For further information, including a proposal template and briefing document, see www.nifpi.org.au

About us The Gippsland Centre of the National Institute for Forest Products Innovation is a joint venture between the Australian Government, the Victorian Government and the forest and wood products industry with the goal of growing forestry into the future.
